

The 7 basic principles of the RGPD

- 1) Transparency (right to consult and rectify your data)
- 2) Purpose limitation (data is collected for a specific legitimate purpose: appointment management, creation of medical files, billing of care, prescription of medicines, request for examinations and management of continuity of care).
- 3) Data limitation (only necessary data are collected).
- 4) Accuracy (data must be correct and remain correct).
- 5) Limitations on retention period (30 years in the medical sector).
- 6) Integrity and confidentiality
- 7) Justification
